Fuse 2017: APRO's Rent-to-Own National Convention & Trade Show

MAY 9-11 ON GALVESTON ISLAND, TEXAS

APRO, the official voice of the diverse and dynamic rent-to-own industry, is proud to host Fuse 2017: APRO's RTO National Convention & Trade Show. More than 400 rent-to-own professionals from across the country—most of them with buying power—are expected on Galveston Island in May for networking opportunities, education and to learn about and purchase the latest products and services available to RTO companies. If you want to sell or launch new products and engage buyers in this expanding industry, nothing compares to the power of the face-to-face interactions that make this show essential. Don't miss your opportunity to maximize exposure to key buyers in the RTO industry.

75% OF ATTENDEES ARE OWNERS AND EXECUTIVES

“A big advantage of attending the Fuse Trade Show is the ability to compare similar products and services all under one roof—from seeing new products and experiencing the different brands to talking with existing vendors and meeting new ones. Fuse saves a lot of valuable time and helps RTO dealers make the best decisions for their business. That's just one of the many reasons I attend APRO's show.”
